HOW SOUTH CAROLINA WAS COUNTED FOR HAYES.-Mr. Moses, ex-Governor of South Carolina, under the conviction that an honest corfission is good for the soul, is now telling the truth about the "outrages" that characterized radical rule in the Palmetto State. Ha has fully exposed the Ku-Klux stories that were used to fire the northern heart, and now he tells how the vote of the State was counted for Mr. Hayes. He says the real power behind the scenes was Judge Cartter, from Washing. ton, who kept up a constant telegraphic communication with the national authorities of that city. Chamberlian also spent days and nights in carnest consultation with the board and their counsel. The party of conspirators, who had assembled in the office of the Secretary of State, proceeded to open and verify the returns, and it was found that Tilden had carried the State by over one thousand majority of strictly legal votes. At once it was determined that such a result must be reversed, and to effect this the returns of several republican counties were tampered with so as to increase the majorities which they had really given to Hayes and Wheeler. The figuring was done by Hayne, Cardosa, Stone and Cartter, and the alteration of the returns was achieved by Dunn alone, who has since been heard to say in Washington, while there as an applicant for the Charleston Collectorship of Customs, that it was his right hand which saved South Carolina for Hayes, and that he could prove it by Judge

Cartter. A moderately prominent and worthy republican living in Columbia, has in his possessiou one of the pages of the paper on which the figuring was done. All the characters, with the names of counties, are in the handwriting of F. L. Cardosa, one of the members of the board. The returns from Charleston, Georgetown and Darlington counties were the ones which were tampered with, and in which sufficient votes were altered to give the State to Hayes. It appears from Moses' statement that John B. Dennis offered to testify before the Cochran investigating committee, that to his personal knowledge the true returns of Charleston, Georgetown and Darlington counties were tampered with by Thomas C. Dunn, in the. presence of other members of the Board of Canvassers, and so altered as to give the State to Hayes. This testimony was deliberately rejected by the committee of democratic friends of Wade Hampton, and armed by the democratic legislature with full powers to investigate this and all other frauds in South Carolina.

A Possible Bishop.—It is confidently expected that the Rev. Alpheus W. Wilson, D. D., the present pastor of Calvary Methodist Episcopal Church South, will be made a Presiding Elder of one of the Baltimore districts at the Annual Conference which meets next Wednesday in Baltimore. Probably he will be appointed to the district made vacant by the death of the Rev. Dabney Ball. As a Presiding Elder he would be valuable to the Church, but it is questionable if he is not better qualified to be a Bishop, and there is a wide spread impression among members of the Southern Methodist denomination in this and other cities that the Bishops of the Church, when they meet in April next, will elect him one of their number. It is claimed here that Maryland is entitled to a Bishop, and as there is no questioning the fitness of Dr. Wilson for the office. it is fair to expect that he will hold that im portant relation in the Church before very long. Some doubt is expressed as to whether Dr. Wilson would consent to take the place of Presiding Elder, but those who know him best feel that if he is convinced that he can serve the Church better in that way than as Bishop, he would consent unhesitatingly. Since the death of Dr. Duncan, it is conceded that Dr. Wilson is the most elequent and conviocing preacher of the Church in the upper Southern States. and although he has not had opportunity to give evidence of his executive ability, it has only been for want of opportunity. During his term as pastor of Calvary Church he has endeared himself to his congregation and been the means of adding materially to its roll of

membership .- Baltimore American . THE LOVE SICK PRIVATE, -John G. Corbett, the soldier of the Third U. S. Artillery Battery, stationed at Fort Wadsworth, S. I., whose attentions to a young daughter of a wealthy resident of that vicinity were recently the subject of some litigation in the United States Court, instituted suit for damages against General Gibson, his commanding officer. Corbett's term of service will expire on March 11. He was placed under arrest from November 29, 1877, until January 17, 1878, the charge preferred against him being "conduct prejudi cial to good order and military discipline. Corbett claims that his confinement was the

result of a conspiracy, and that it was contrary to the rules of the army. He also alleges that the defendant libeled him when he wrote of him as being either "a scoundrel or a fool." The amount of damages claimed is not stated. A few days ago an order was obtained from Justice Westervelt, as Commissioner of the Supreme Court, to examine General Gibson. An order was subsequently obtained from Judge Gilbert by the counsel for the defendant to show cause why the original order should not be overruled. After hearing a brief argument upon the return of the order to-day, Judge Gilbert denied the motion to overrule, and the case goes back to Justice Westervelt for examination .- N. Y. Times.

COMPLEX MATHEMATICS. - A mathematician and connoisseur in mint juleps, having heard that the ice crop in Maine was estimated to have reached 3,500,000 tons, says that al lowing a quarter of a pound of ice for a mint julep, and making allowances for those who don't drink, the rest of the people in Maine can have about forty-nine drinks each. Saying that seven drioks will make a man feel tolerably happy, out of forty-nine drinks he can manage to have seven drunks, and one man drunk seven times is, of course, equal to seven drunken men; so the whole ice crop will yield an aggregate of 2,100,000 drunken men. Suppose that from every ten of those who get drunk seven times one has the jimjams, 210,000 men will be thus afflicted-about one third of the population of the State! If each of these unfortunate men sees 1,000 snakes, there will be 210,000,000 snakes seen, and allowing two snakes to a boot, they will fill 52,500,000 pairs, which insures brisk work in the shoe shops.—Philadelphia Record.
